

DESIGNED FOR BIG DREAMS & DREAM DAYS

It's officially the season for bringing out your best wedding and event designs, and we have all the inspo to help you concept and create dreamy displays! In this guide, we've featured our newest trend-forward collection. We've also included tips, tricks, and how-tos from some of the top designers in the wedding, event, and floral industry to show you the versatility, ease of use, and compatibility of our wide range of stands, structures, vases, vessels, and more.

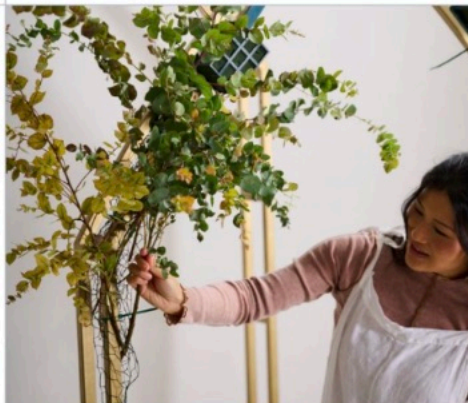

ENDLESS POSSIBILITIES

Minimalist in form with clean lines and so much opportunity to play with floral design, the new gold metal Gothic Arch is a florist's dream structure. The Gothic comes in two heights that pair together beautifully for a cohesive design scheme. 1-inch square metal tubing & rungs spaced out across the frame allow for easy attachment of your choice of floral mechanics from top to bottom. The full structure is only 6 inches deep with 14-inch square bases. It breaks down into 6 parts that are intuitive to set up and easy to transport.

NEW GOTHIC ARCH

70040 47.5"x 6"x 82"
70041 59.5"x 6"x 102"

The Mondrian Stand's unique design allows you to connect as many stands as you want to create a seamless backdrop according to the size and style of your event.

STUNNING FUNCTIONALITY

Frame your event displays with the ultimate functional and beautiful backdrop. The gold metal Mondrian Stand features unique square tubing and interior lines, measuring 8 feet tall. Pair with the matching Mondrian Dish Attachment to display pillar candles, picture frames, or even beverages. The top section slots into the lower section and breaks down into (2) 4-foot sections for ease of transport and storage.

SET THE STAGE WITH SUSTAINABLE STYLE

The curved matte gold metal Conservatory Stand gives you all the flair and functionality for florals, but was specifically designed with eco-friendly floral mechanics in mind. The add-on Soprano Vase Attachments (sold separately) are watertight with a flat base for ease of arranging in advance for faster installs and keeping flowers fresh for longer. The Conservatory breaks down easily for transport.

A FOREVER FAVORITE

Customers love the Harlow Stand for its height, stackability, color and size options, and now for the accompanying Harlow Bowl, which fits perfectly and makes large elevated floral arrangements possible. This deep compote accommodates large amounts of water to keep flowers hydrated, while sustainable mechanics like chicken wire and natural armatures can be well-supported and hidden from view.

Classic chinoiserie has always been a struggle to design within, especially for weddings with its very small openings, sizes, and proportions. These new collections feature classic shapes with wider openings, allowing for more floral design flexibility. The lower bowls and compotes are ideal heights for creating romantic and flowy centerpieces.

WHEN TRENDS TAKES ROOT

While conceptualizing this collection, we wanted to put a fresh take on current trends for our customers, which included chinoiserie, a much-loved classic artform. Through conversations with our long-time partner and event floral design customers, Sweet Root Village, we learned that coral ceramics were in high demand. We brought this dynamic duo into our design collaboration, and through our product development team and their expertise, the new Coral Eleanor and Coral Elodie Collections were born!

DELICATE DIMENSIONALITY WITH GLASS SLEEVES

A centerpiece isn't complete without the warmth of candlelight and the elegance and height of glass sleeves. Our range of sleeve options come in multiple sizes and styles, like clear and optic glass, and are designed to pair with our range of candlesticks, candleholders, candelabras, and even stands, like the Argyle. Mix and match these sleeves to meet your event design needs, keep candle flames contained, and create a sophisticated tablescape.
